

INTERNATIONAL CONFERENCE FOR PERIANESTHESIA NURSES (ICPAN) 2015

Dear Colleagues,

We would like to invite you to come to Copenhagen in the late summer 2015. The Danish Association of Anaesthesia, Intensive Care and Recovery Nurses is proud to be hosting the 3rd ICPAN congress.

The aim of the conference is SHARING initiatives in education, research, management and evidence-based practice and CARING for the perianaesthesia patient: clinical case studies in anaesthesia, post anaesthetic care including paediatric, elderly and surgical speciality groups. Online registration will open mid-September 2014 and 1st call for abstracts will open in October 2014.

This will be the first ICPAN congress in the Nordic countries, home of the Vikings and IKEA! Denmark, which introduced Hans Christian Andersen and Lego to the world, is a casual, friendly country with an unparalleled focus on childhood and family life – an appropriate setting to address issues of post anesthetic care for our patients. And, as in all Nordic countries, English is commonly spoken and spoken well – particularly in beautiful vibrant Copenhagen, a world class city with impressive architecture, parks, museums, restaurants and, of course, the Little Mermaid. So come to Copenhagen, enjoy what Denmark has to offer and become stimulated and invigorated by what promises to be an exhilarating congress!

On behalf of Danish Association of Anesthesia, Intensive Care and Recovery Nurses,

Bente Buch, ICPAN 2015 Conference Chair
