DONATIONS FOR THE DEVELOPMENT OF THE CERTIFICATION EXAMINATION WITH THE CANADIAN NURSES ASSOCIATION (CNA) ARE ONGOING:

Please give today in support of the volunteers who give of their time. Donations are needed to support travel and accommodation expenses incurred during the development of the examination in sites across Canada. Complete the donor form available at: www.napanc.org/education/Donations-for-Certification) or email info@napanc.org

DONATIONS FOR STANDARDS for PRACTICE DEVELOPMENT ARE ONGOING: Please support the translation of English to French and the cost of printing and publication. Complete the donor form available at: www.napanc.org/standards/standards-donor-application-form or email info@napanc.org

MISSION STATEMENT (synopsis)

The National Association of PeriAnesthesia Nurses of Canada (NAPAN©) promotes quality PeriAnesthesia care to clients*.

The National Association of PeriAnesthesia Nurses of Canada (NAPAN©) promotes leadership to PeriAnesthesia nurses in education, research and adapting to evolving practices in client and health services needs within the Canadian health care system.

The National Association of PeriAnesthesia Nurses of Canada (NAPAN©) promotes respect for the diversity of those we serve and respectful, harmonious and caring relationships with those associated with NAPAN©.

*Clients are individuals, families, groups, populations or entire communities (NAPAN©, 2008)

GOALS

To increase membership throughout the provinces and territories

To update the Standards for Practice for PeriAnesthesia Nurses of Canada on an ongoing basis

To maintain Certification qualification with the CNA for our specialty

To network provincially, nationally and internationally in order to share best practices

OBJECTIVES

To promote high standards of nursing practice within perianesthesia settings in order to provide quality nursing care to the people of Canada

To promote continuing education to support standards of perianesthesia nursing practice through the provision of scholarships, bursaries, and other forms of financial assistance

To establish cooperation and liaison with all groups, associations, institutions or bodies that may impact and effect the objectives of NAPAN©

To broaden public awareness of the role of the perianesthesia practitioner as a vital member of the health care team

To maintain the development of the CNA Certification Examination for PeriAnesthesia Nurses

CONFERENCES

NAPAN© offers annual conferences throughout the country, with one of the provincial associations hosting the event each year. Watch the website, www.napanc.org under "Conferences" for information regarding past and upcoming National and provincial PeriAnesthesia Nursing conferences and events.

BURSARIES

NAPAN© sponsors one PeriAnesthesia Nurse from each of the 9 provincial associations to attend each National conference through the "Bursary for Conference Registration" initiative.

NAPANc sponsors and recruits Bursaries to support Certification Examination registration for qualified PeriAnesthesia Nurses. 10 Bursaries are offered in 2014.

NEWSLETTERS

The quarterly "Eye Opener" newsletter is now distributed electronically by NAPAN© to all members of the association. Since "napan" in Cree translates to "eyes open", the newsletter was given this name. This also relates well to the patient condition in the domains of PeriAnesthesia Nursing.

The content of the newsletter is comprehensive and variable: up-to-date information on occurrences across the country, information about the association's corporate activities and an informative and relative article relating to PeriAnesthesia Nursing activities.

Join as a member of your provincial association (see over) to ensure you receive your Eye Opener. It will really open your eyes!

STANDARDS

The third edition (2014) of the Standards for Practice is now available for your reference.

All Standards and Resources are evidence-based and align with the CNA's Standards for Nursing Practice and relate to the Accreditation Canada's framework for Standards and recommendations for practice.

**National Conference 2015
Moncton, NB**

June 12-14, 2015

Conference Co-Chairs:

Alice Hudson alice.hudson@horizonnb.ca

Laura McNulty mcnultyl@nb.sympatico.ca
